Don't duplicate! Create! Join me in writing your own songs, monologues and stories in a flash! No, it's not school! It's music, drama, and capturing life-changing moments on paper.

RICHELLE'S CLASSES

WRITING IN A FLASH: Flash moments are defining moments in your life, like the final farewell to someone you love, or the moment you learn your parents are splitting up, or moment you take a step that alters the course of your life.

SONGWRITING: Create lyrics and develop your song by putting your lyrics to beats, acoustical instrumentation, or karaoke music. Learn to feel and exhibit the meaning of your song when performing to an audience.

MONOLOGUE: Develop a character dealing with a critical situation alongside other characters in a scene. Through a short monologue performance, give the audience a glimpse of what your character *really* thinks and feels.
